

Reminder: Dogs are not allowed on school grounds

With the exception of service animals, dogs are not allowed on school district grounds, playgrounds or sport fields at any time throughout the calendar year.

This district rule was created as part of our continued commitment to the health and safety of our students and staff members.

When students are not present after school hours and when athletic events (including practices) are not taking place, dog owners may walk their pets on a leash along the school property borders, such as on sidewalks/school roads. Please follow NYS Public Health Law §1310 by cleaning up and properly disposing of pet waste.

Thank you for your continued corporation and support!
