2023-2024 School Year

BIMAS

Attendance

## 2022-2023 Attendance

# Attendance Data

One negative...MP 2 to MP 3 data this year is a change but similar to years past

The data remains far better this year as compared to last year:

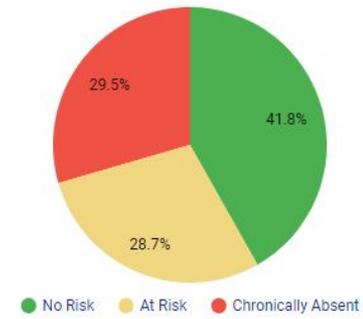

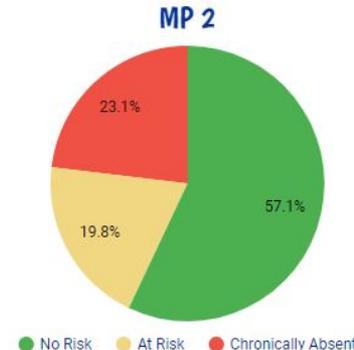

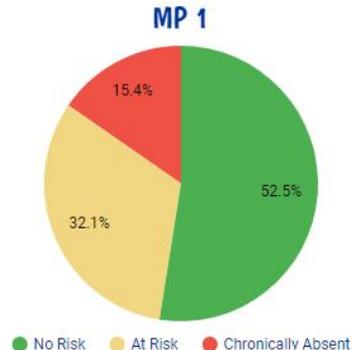

No Risk has increased:

- 1st MP - +9.2%
- 2nd MP - +17.1%
- 3rd MP - +13.4%

Chronically Absent decreased:

- 1st MP - -4.7%
- 2nd MP - -10.1%
- 3rd MP - -2.9%

## 2023-2024 Attendance

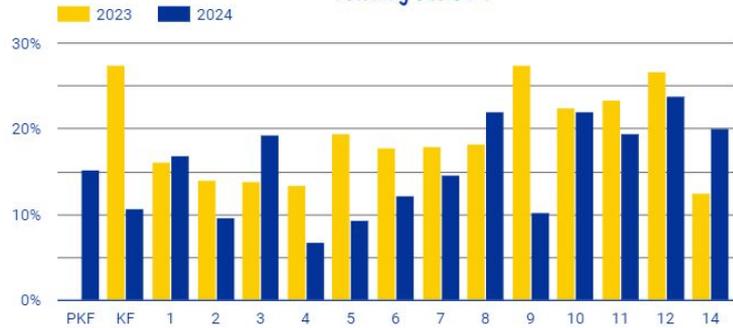

# Attendance Data: By Grade Level

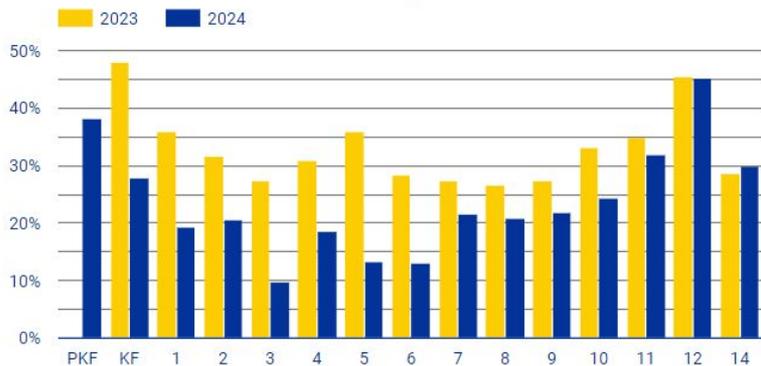

What are the trends throughout the year by grade level?

Seniors are the one glaring grade level  
8th grade also have some attendance issues

**% of Chronically Absent Students  
Marking Period 1**

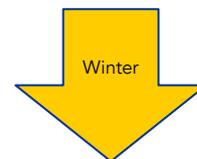

**% of Chronically Absent Students  
Marking Period 2**

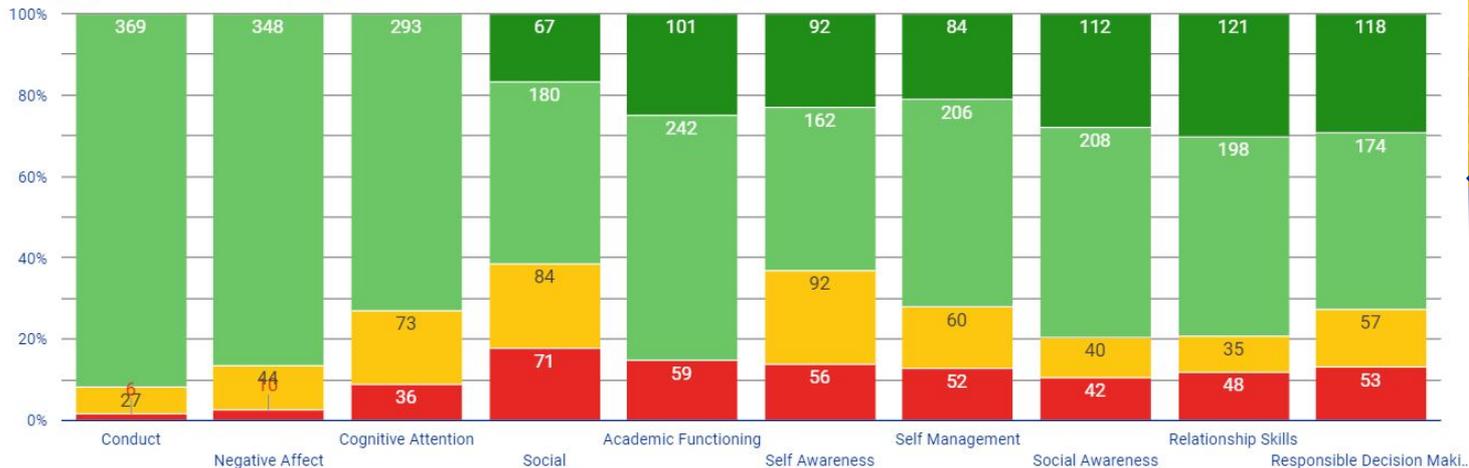

**% of Chronically Absent Students  
Marking Period 3**

# BIMAS Data

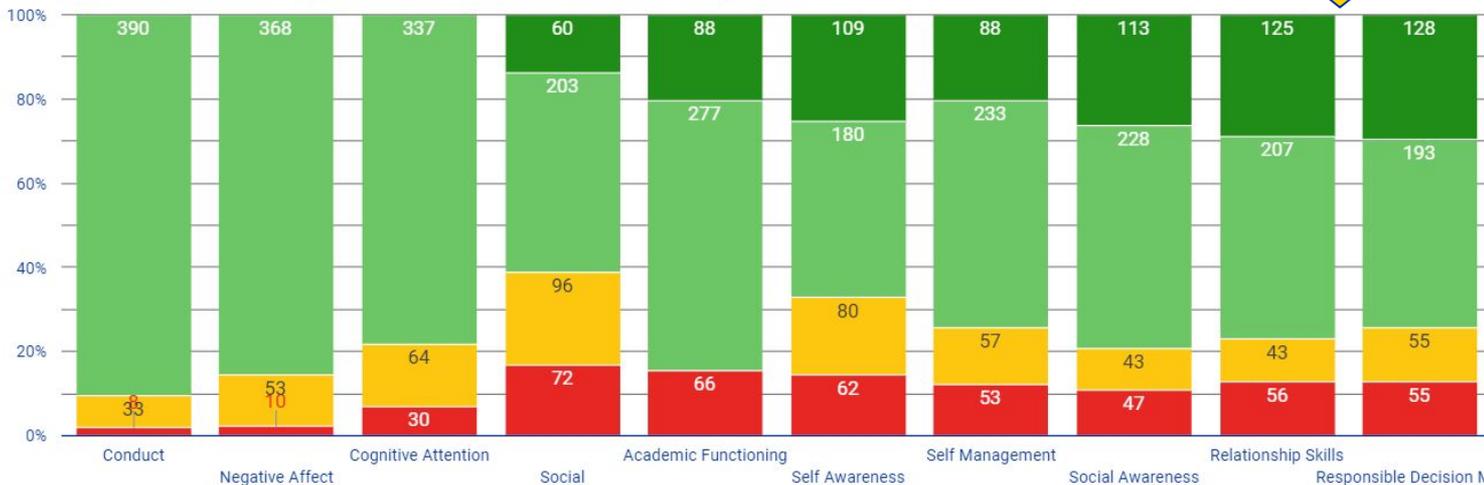

High Risk/Concern    Some Risk    Low Risk/Typical    Strength

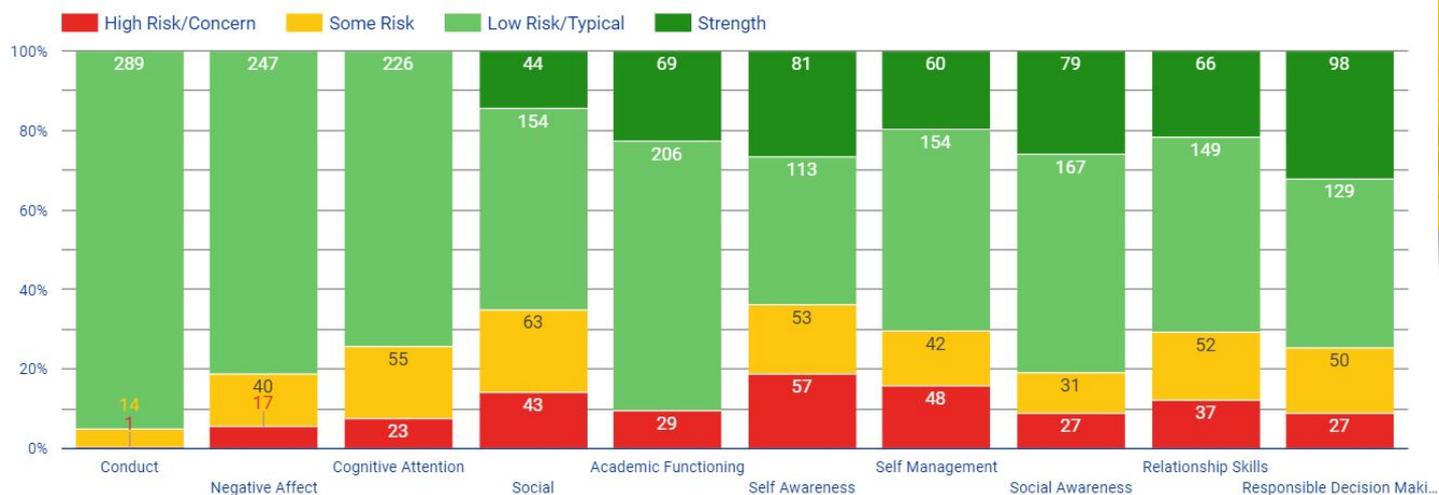

## Burton Street:

High Risk/Concern    Some Risk    Low Risk/Typical    Strength

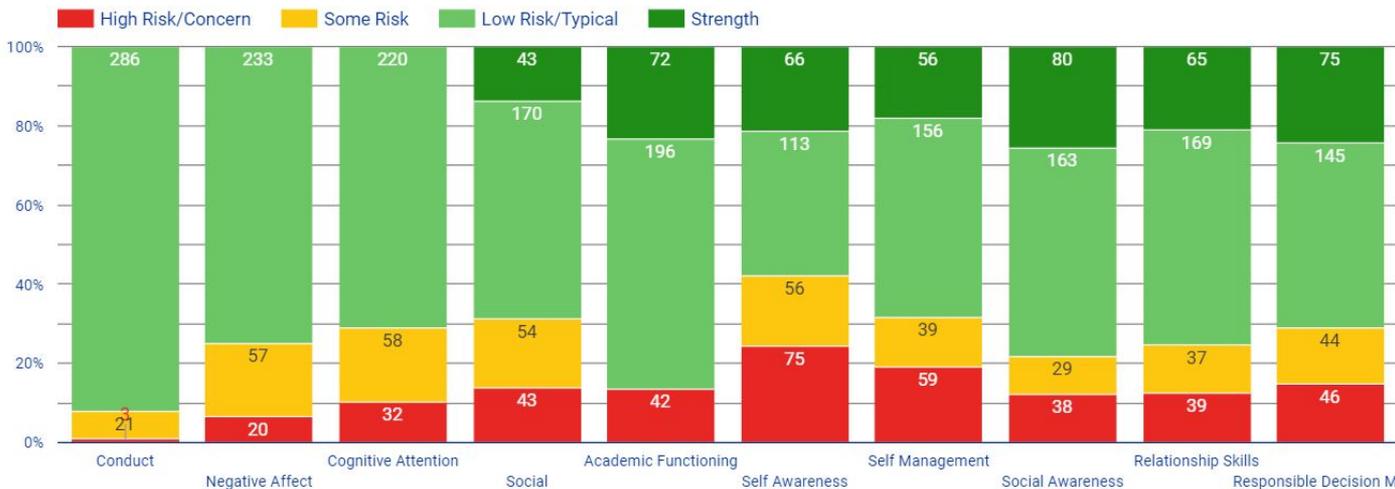

Data Represents concerns about behavior and demonstrates needs for supports to be put into place, and many that have been put into place.

# BIMAS Data

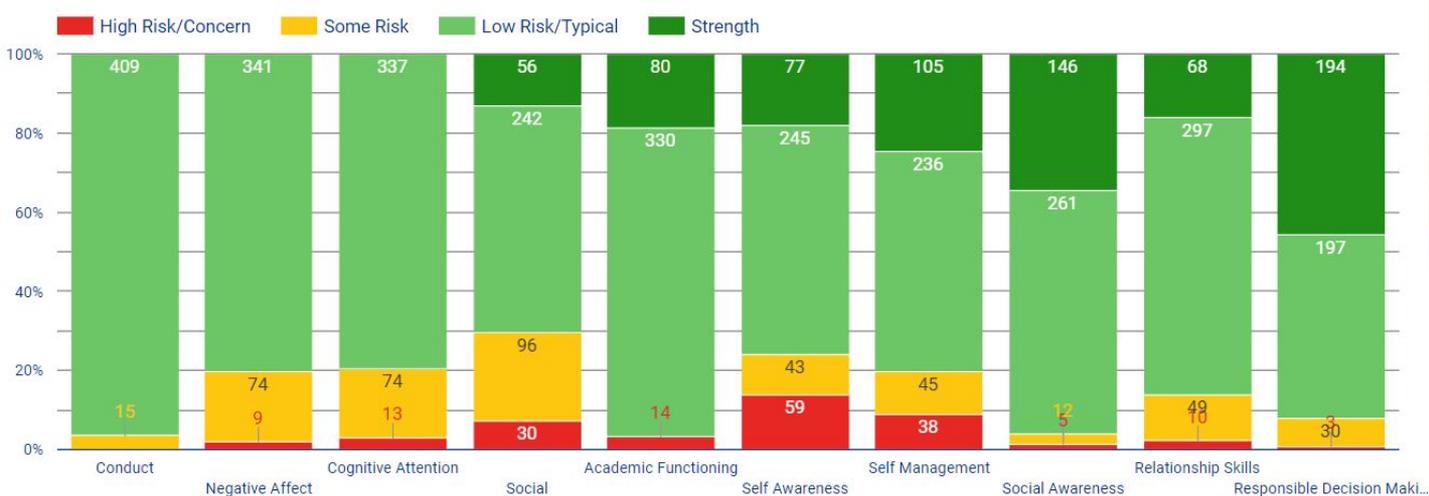

## Middle School:

Data is discussed in teams - at each level it is presented and discussed about systems put into place to support our students.

# BIMAS Data

## High School:

Mental Health Team leads the discussions at each of the buildings and presents the information to administration as well as MTSS team to build plans. Things are done both individually for students as well as for groups of students.

## Behaviors (with at least 2 instances)
